If you are considering the purchase of an e-book, that is a digital electronic version of the book that you have access to temporarily, for 180 days during the course, you may purchase it at a web site called CourseSmart. You will have two options: an online version and a downloadable version. Choose which one works for you the best. Both will expire after 180 days.

If you choose the downloadable version, it must be for only one computer. Therefore, you must be sure about what computer and your access before download it. (If it is your laptop, no problem.) The advantage here is that you will always have access and not depend on Internet access.

If you choose the online version, you must have Internet access to use it. Then you can access it from any computer, at any time, so long as you have access to the Internet.

I think you can see the pros and cons of each alternative. So make your choice based on which works best for you.

The e-book subscription lasts for 180 days.

The link to the web site for the e-book is <http://www.coursesmart.com/students>

then all you have to do is insert the author: Yarber and you will be taken to the eTextbook. Be sure to select item 1. and compare the two options before you buy:

Written by a leading sexuality researcher and experienced teachers of the human sexuality course, Human Sexuality has been lauded by students and instructors alike for providing the most integrated and non-judgmental view of sexual orientation available. This modern theme, along with the thorough coverage of sexuality and the media, engaging writing style, and biopsychosocial orientation, make the text a perennial best-seller. The new sixth edition builds on these strengths and adds updated information, a new design, and a highly crafted resource program to make the book more useful than ever.
