Students are permitted to do rotations overnight as well as double shifts when available.

**St. John's University Nationally Accredited Program includes the following curriculum:**

**BCLS\*ACLS\*PALS\*NRP\*PHTLS\*Homeland Security WMD\***  
**National Registry Skills Testing and NYC REMAC Orals Preparatory Course with a Proven Track Record**  
**NYC REMAC Exam Administered on Premises**

We use computer based, interactive on-line learning that you can access from your home computer or from our on site computer lab. Our on-line exams make it the perfect and most convenient way for the student to apply the knowledge they have learned. We offer the resources of a large University and the most experienced faculty in the EMS field. Our skill labs are set up to allow students to interact with the faculty members and learn in a professional academic setting.

### Screening Exam Going On Now!

Screening exams are on going for our April 07, 2010 Class. Screening exams are given on Monday and Wednesday from 9am to 1pm. Please call to make an appointment. You must be a currently certified NYS EMT. The screening exam is 200 multiple choice questions consisting of the following: 150 EMT, 35 reading comprehension and 15 math questions. In addition to the written exam there will also be an oral interview. The cost of the Screening Exam is \$100.00 USD, non-refundable payable by money order to: St. John's University. The screening fee is separate from the tuition. You must bring your drivers license and your valid NYS EMT card with you.

For further information or to schedule your screening exam, please contact anyone of the following:

Study 199 Paramedic Chapter 7 flashcards from Richard H. on StudyBlue. Paramedic Chapter 7. Reminder. Edit a Copy. Study these flashcards. Paramedic Chapter 7. Richard H. 199. cards. A fracture of the orbital bone is commonly referred to as a: blowout fracture. The reticular activating system is located in the \_ and regulates Paramedic Original. EMTs, are you ready to take your career to the next level? We will prepare you with the technical skills, expert knowledge and clinical experience necessary to excel as a New York State/New York City certified paramedic. In order to enter LaGuardia's Paramedic class, you must have a high school diploma or high school equivalency certificate along with current New York State EMT-Basic certification. There are three pre-admission tests, including a basic math test, reading comprehension test and EMT test. These tests evaluate your preparedness for the Paramedic Program. Preparing for paramedic school is more than recalling previous on-the-job experience. Consider these tools to help you with your coursework and prepare you. Your experience as an EMT will be the foundation for helping you pass paramedic school, but to become a paramedic you'll need to fine-tune your study skills, review your BLS knowledge and reallocate your time so that paramedic school receives your full attention. EMS1 took a look at a variety of tools that can help you navigate through paramedic school more effectively. We selected seven that will bring your EMS education preparedness and knowledge to the next level. 1. Medline Dual-Head Aluminum Stethoscope.
