While everyone knows an asteroid killed Earth's dinosaurs, how exactly it achieved this has remained the subject of some debate. Now, researchers have discovered the fiery apocalypse was even more awe-inspiring than we'd thought. Waterfowl hunting (also called wildfowling or waterfowl shooting in the UK) is the practice of hunting ducks, geese, or other waterfowl for food and sport. In many western countries, commercial waterfowl hunting is prohibited, and duck hunting is primarily an outdoor sporting activity. Many types of ducks and geese share the same habitat, have overlapping or identical hunting seasons, and are hunted using the same methods. Thus it is possible to take different species of waterfowl in the same outing
