Development theory and the three worlds: Towards an international political economy of. development (2. nd. ed.). Harlow, New York: Longman. 6. Kaufman, b.e. (2010).Â and development: The political economy of capabilities accumulation. Oxford: Oxford Scholarship Online. RODRIK, D. (2000). Development strategies for the 21. st. century. Washington: The World Bank. The development of international economic relations is a kind of dialectical process. As is known, exchange and trade historically occur âœœon the margins of social organisms.â€ International, intertribal trade is the starting point of the development of exchange, with which the capitalist economy also develops.Â Since the era of development of bourgeois political economy coincided with the dominance of England in the world market, it is only natural that the theory of the classics became the fighting banner of bourgeois âœœcosmopolitanism,â€ which essentially was the only adequate form of expression of the national interests of British capital.
