GCSE English Language and Literature

Exam Board: Edexcel (Pearson)

The courses for English Language and Literature run over 3 years. Exams are sat at the end of Year 11.

English skills are essential in the modern world, and a GCSE in English is a particularly essential qualification for post-16 courses and employment so there is a strong focus on ensuring the students are **prepared for exams** so they can achieve or exceed their target grades.

All students taking GCSE English Language now also have to sit the Literature exam. This may be accepted as an English qualification for entry to A levels, other courses and jobs.

The grading system for GCSEs is no longer grade A* - G but instead students will be awarded a number, with 1 being the lowest and 9 the highest.

A Functional English qualification is also available for those who cannot cope with GCSE.

Students are taught in **groups** broadly based on ability, determined by their performance in assessments, although other factors also determine groupings such as group dynamics, students' style of learning and the pace at which a student works.

ASSESSMENT

The main aim of assessment is **diagnostic** to help the teacher and students be aware of what students are competent in and what requires further teaching and learning. **Feedback** on written work is constructive, acknowledging strengths as well as providing clear and focused comments on how to improve, with follow up work to help embed what is required to make further progress. Learning and progress is also encouraged through drawing on a variety of resources and through group and one-to-one support provided by both the students' peers and the teacher.

The **GCSE qualifications** for English and Literature are **based on 100% final exams**. There is no longer any form of coursework or controlled assessments which contribute to the final results and students cannot take notes or copies of texts studied into the exam. Students will need to be familiar with texts studied. There will be **termly exam-style assessments** requiring revision in order to prepare students for these terminal exams.

Students must also demonstrate **speaking and listening** skills. They must do a presentation which is assessed by the teachers but also submitted to the exam board on tape. They are given a separate mark for this to the reading and writing exam. Speaking tasks must be undertaken and assessed to be awarded a GCSE English Language qualification, even though the mark does not contribute to the GCSE English Language grade.
