Loosing the Bonds is popular, narrative history at its best: a consuming, dramatically told David and Goliath story about the moral power of justice triumphing over powerful forces of oppression. Apartheid—the brutal enforcement of racial segregation by South Africa’s white government—became official policy in post-World War II South Africa, coinciding with the rise of the civil-rights movement in the United States. From the Kennedy administration on, Washington spoke against apartheid but, pressured by American corporations making big profits in South Africa and the geopolitics of the Cold War, was slow to act. In *Loosing the Bonds*, Robert Kinloch Massie underscores the contributions of white liberals, particularly the social justice ideology and activism of the Christian left. Francis Nesbitt, in *Race for Sanctions*, focuses on African Americans as the primary impetus of the anti-apartheid movement. The large majority of anti-apartheid activists in the United States did not visit South Africa. And so Ashe traveled across several borders—both real and imagined—to emerge as a crucial transnational actor within the anti-apartheid movement in the early 1970s.¹⁷ Born in Richmond, Virginia, in 1943, Arthur Ashe excelled at tennis from an early age.

Some institutions unwilling to divest stock eventually agreed to vote for disinvestment stockholder resolutions -- or His book *Loosing The Bonds: The United States and South Africa In The Apartheid Years* was completed over the next four years, and published by Doubleday in 1997. It won the Lionel Gelber Prize for the Best Book on International Relations in 1998 and was reviewed favorably across the United States, including the New York Times.[8]. In 1994 he won the statewide primary election and became the Democratic candidate for Lieutenant Governor of Massachusetts.Â *Global Codes of Conduct: An Idea Whose Time Has Come* (Notre Dame University Press, 2000). The United States and South Africa. in the Apartheid Years.* By Robert Kinloch Massie. Illustrated.Â For all his own intense involvement in the anti-apartheid cause, Massie is surely aware of the dangers of moralistic lecturing. Maybe he has been watching recent world developments. Different forms of American scolding have managed to unite in resentment the leaders of Western Europe; the rulers of Communist China; Benjamin Netanyahu of Israel; Mahathir Mohamad of Malaysia, who recently blamed Jewish financiers for his country's problems -- and President Nelson Mandela of South Africa, who insisted on going to Libya to embrace Col. Muammar el-Qaddafi despite the vehement objections of the
