European Journal of Anaesthesiology, Volume 28, Supplement 48, 2011. The books and book chapters listed on her CV were made-up, as were the publishing houses that published the books. One-third of the journals to which Szust applied were sampled from Beall's List of 'predatory' journals. Forty of these predatory journals accepted Szust as editor without any background vetting and often within days or even hours. There are fundamental errors in the titles and abstracts, or frequent and repeated typographical or factual errors throughout the published papers. The journal website is not professional. The journal website does not present an editorial board or gives insufficient detail on names and affiliations.
