Sex or gender discrimination in employment involves treating someone unfavorably because of the person's sex, whether they are applying for a job or are a current employee. Pamela Stephenson Connolly. Likewise, problematic sexual obsessions and compulsions should be treated by a specialist. There are many myths about sex and aging, but the bottom line is that sex works on a "use it or lose it" basis. Bar illness and certain other conditions, we can continue to enjoy sexuality until the day we die - if we want to. Even those with severe physical illness or disability can find a way.
