Critics of "liberalism" in one sense may themselves be "liberals" in another. Likewise with the word "conservatism". To highlight the conceptual distinction between democracy and liberal order, imagine a meritocracy in which the ruling class is selected on a self-perpetuating basis. 2 Or "classical" liberalism where by the word "classical" I refer to the philosophical liberalism that emerged at this time, not to an economic theory of free markets. (See, for example, the distinction Mill makes, in *On Liberty*, ch 5, para. 4, between the liberty principle which he there argues for, and the doctrine of free trade which, as he says, rests on different grounds; compare his nuanced discussion of *laissez-faire* in the *Sociology and Colonialism in the British and French Empires, 1945-1965*.
