

THE EARTHSCAN READER IN FORESTRY AND DEVELOPMENT

Edited by Jeffrey Sayer

15% off list price

- 'Whether you are a seasoned conservationist or forestry professional, an aspiring student or simply a concerned citizen, this book is for you' David Kaimowitz, Founding Director General, CIFOR
- Most comprehensive reader in forestry yet published: covers all sectors within this broad subject area and edited by Jeffrey Sayer, one of the world's leading authorities on forestry and development
- Maps out the complex forestry field; introduces and explains key hard-to-find literature

Arrangements for the governance and management of forests have been changing rapidly in recent decades. The post-Rio period has been one of unprecedented re-examination of what the world's forest resources consist of, who they should belong to, who should benefit from their conservation and management, and how all of this should be organized. This collection of outstanding papers on forests, development and livelihoods (until now widely dispersed throughout the literature) brings together the most recent thinking on these issues, and will give students and practitioners of forestry and natural resource management a rapid overview of what is changing, how and why. The papers provide a balanced view of subjects that have been controversial or which the media and influential decision-makers have misunderstood or misrepresented.

This book updates and supersedes the best-selling *Earthscan Reader in Tropical Forestry*, edited by Simon Rietbergen, but this time with a broader focus covering all types of forests and contexts.

Jeffrey Sayer is Senior Associate of WWF International's Forests for Life Programme and was Founding Director General of CIFOR (1993–2001)

CONTENTS

Introduction • Part I: The Forest Resource • Part II: Forests and Livelihoods • Part III: Threats and Opportunities • Part IV: The Challenge of Sustainable Management • Part V: The Way Forward: Forestry for the Future • Index

Paperback ~~£24.95~~ £21.21 ISBN 1-84407-154-5 | Hardback ~~£85.00~~ £72.25 ISBN 1-84407-153-7 | July 2005
